- Expansion land
- Low site coverage
- Self contained yard
- Large power supply

Description

Manston House is a large affordable distribution warehouse totaling 174,161 sq ft including c.16,870 sq ft of offices. The main distribution building is of portal frame construction with profiled metal clad elevations under an insulated pitched roof. There is a concrete floor and a clear eaves height of approximately 9m for the majority of the space. Externally there is parking for cars and HGVs, sprinkler tanks, plant room and extensive undeveloped areas.

The premises comprise a large warehouse complex providing a range of warehouse/industrial units situated within a secure, self-contained site. Access to the complex is via a dedicated, manned gate-house.

Location

The property is located on the well-established Manston Business Park, approximately 6 miles west of Ramsgate and 75 miles east of London. The Business Park provides good accessibility to the Channel Ports of Ramsgate (6 miles), Dover (19 miles) and Folkstone (24 miles).

Manston is connected to the motorway network via the A299 dual carriageway which leads to J7 of the M2, 20 miles to the east. To the south east, the A28 connects with J9 of the M20 motorway.

Ramsgate rail station is approximately 5 miles east of Manston Business Park, providing direct services into London St Pancras International in about 1 hour 15 mins. A new rail station is also being developed at Cliffsend to the south east corner of the airport which will significantly reduce journey times to London.
