

GENERAL NOTES

The contractor is to check all dimensions, setting out and details on site prior to placing any work in hand or placing orders for any components. Any discrepancies are to be reported to the Architect to enable instructions to be issued in advance of work being carried out.

NOTE 1
Dimensions marked * (or "Site Dimension") denote existing openings/site dimensions and are approximate and should be verified on site prior to manufacture/construction.

All dimensions are measured to face of masonry/metal or timber studwork unless noted otherwise.

Materials and Workmanship to be carried out in accordance with Building Reg's Approved Document 7.

ALL CONSTRUCTION TO BE CARRIED OUT IN ACCORDANCE WITH THE LATEST VERSION OF THE BRITISH STANDARDS AND BUILDING REGULATIONS.

The contractor shall use those materials and manufacturers stated in the Architects and other consultants documentation or equivalent materials and manufacturers if approved by the specifier.

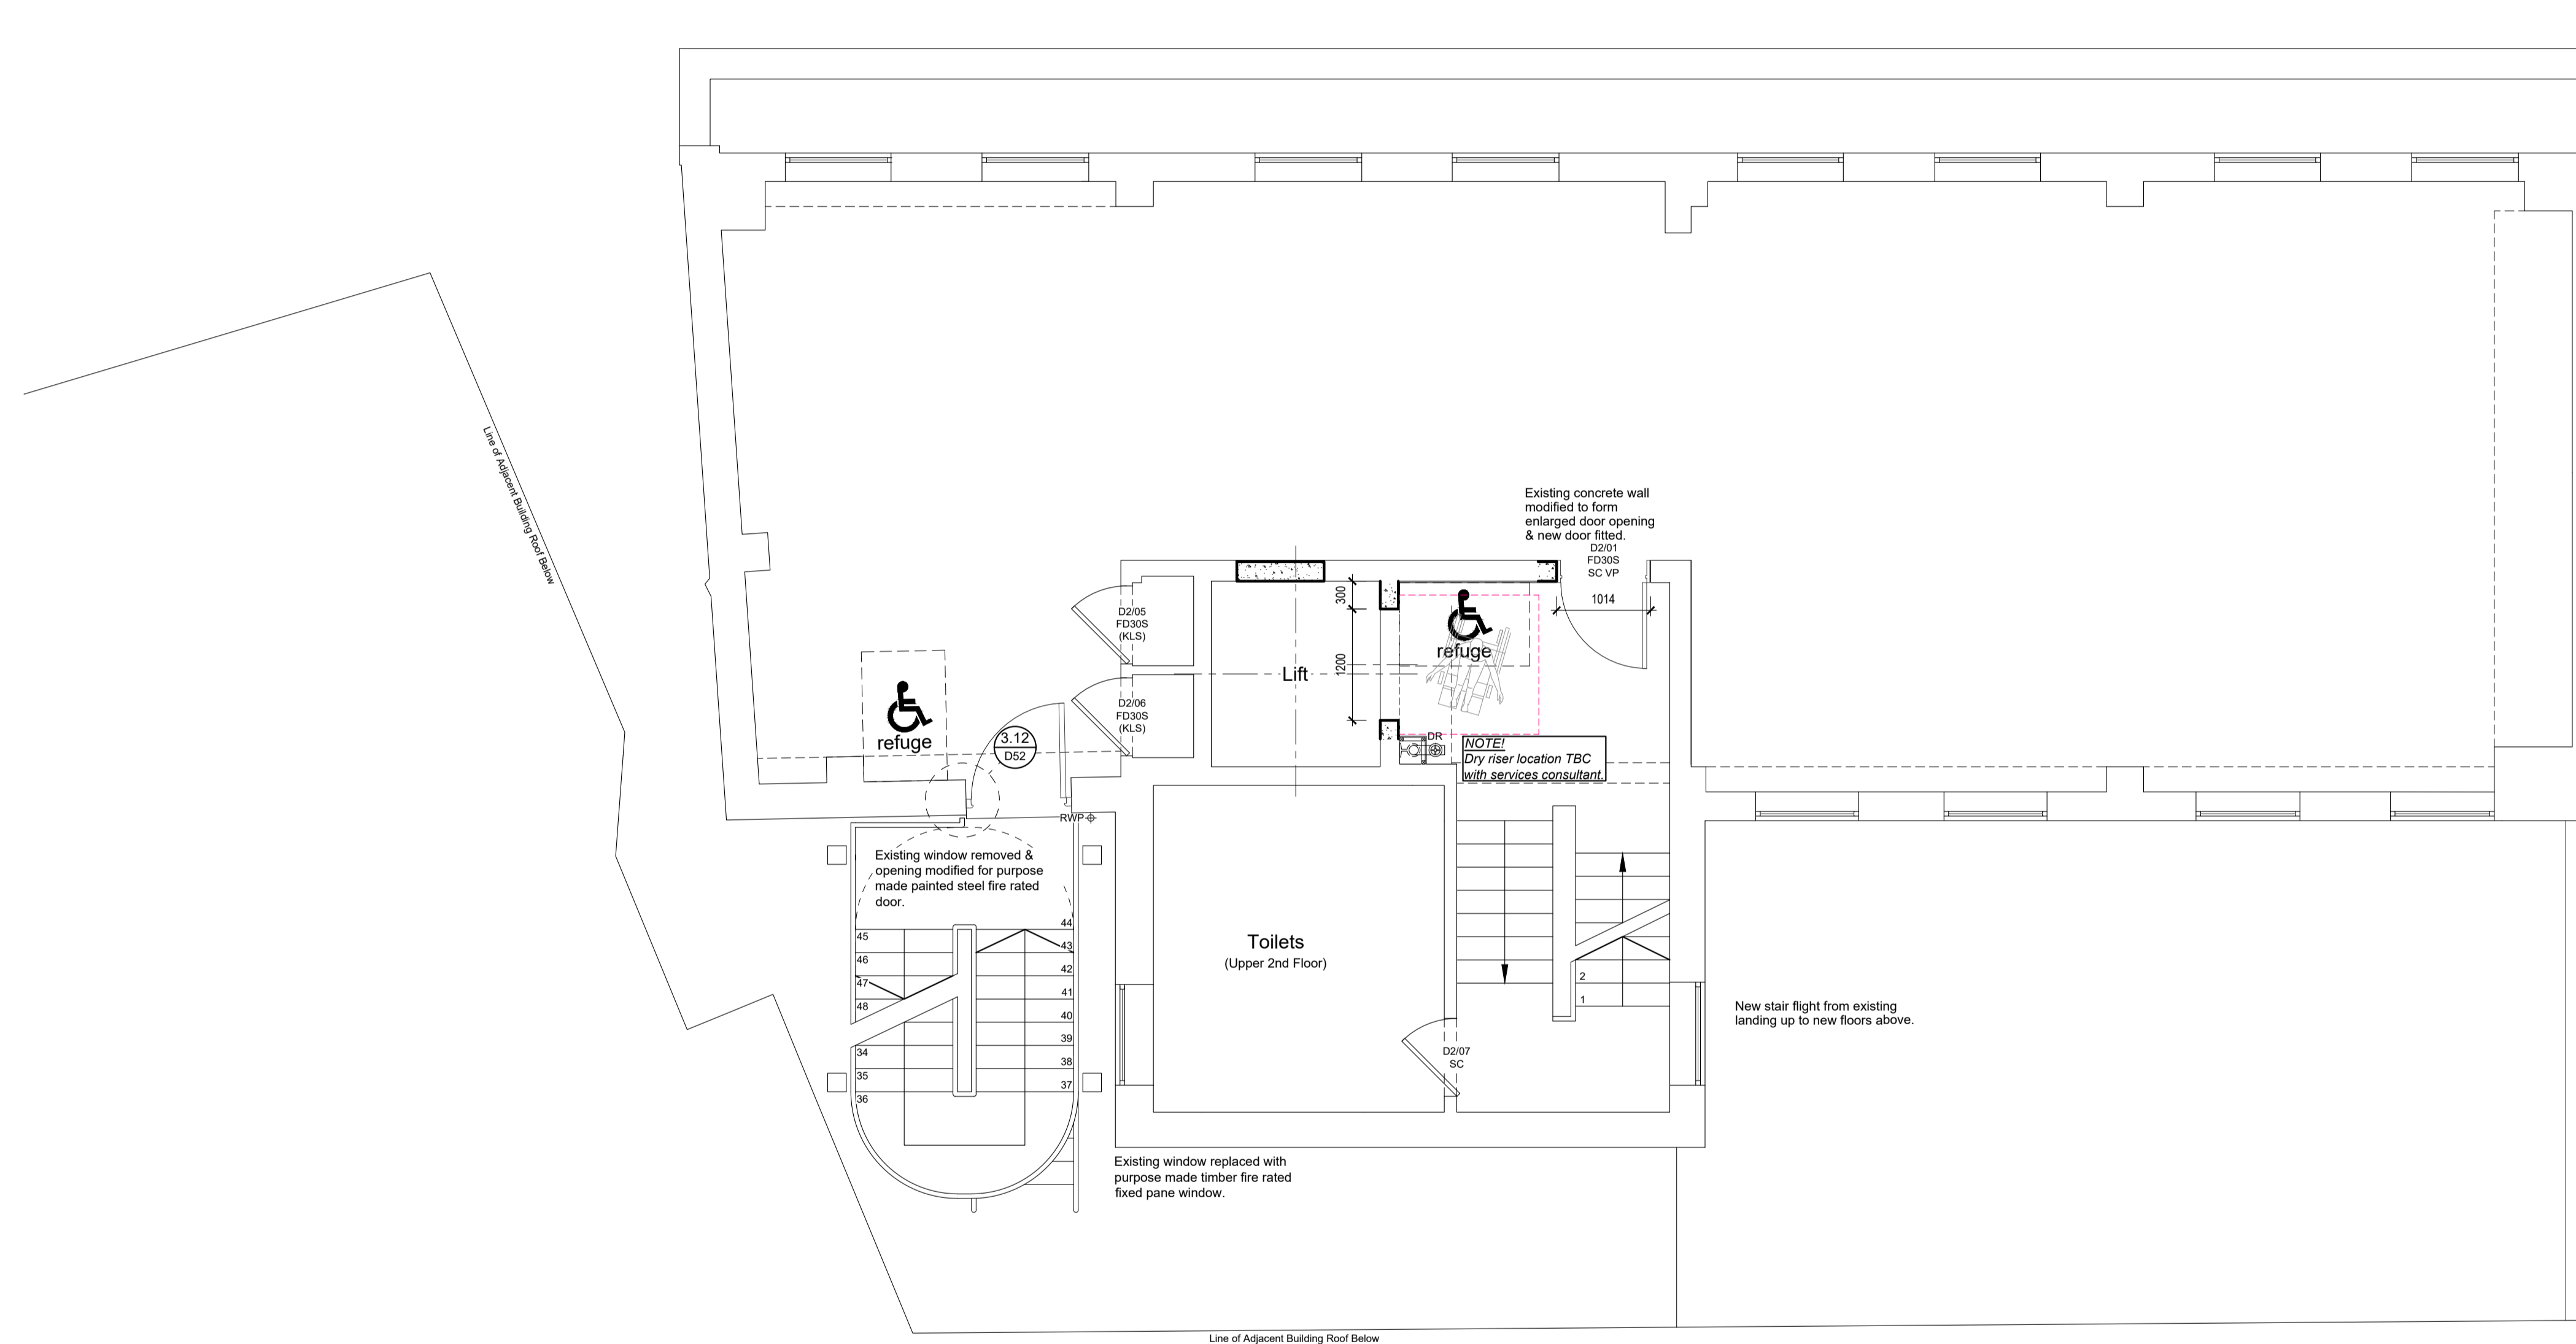

STRUCTURAL ENGINEERING DESIGN
For all structural engineering design information refer to Entuitive drawings and specification.

SERVICES DESIGN
For all M and E design information refer to KUT LLP's drawings and specification.

SURVEYED INFORMATION
These drawings are based on surveyed information provided by the client. Initial survey carried out by Survey Solutions in February 2014. Existing building layouts/details may have changed since surveys were completed.

EXISTING FLOOR LAYOUTS
Existing floor layouts are based on the initial survey modified to suit information provided by the client.

Existing floor levels will need to be independently assessed by others to ensure compliance with the current Building Regulations with particular emphasis on the requirements of Approved Document B (Fire Safety), Volume 2: Buildings other than Dwellings.
