

GENERAL NOTES

The contractor is to check all dimensions, setting out and details on site prior to placing any work in hand or placing orders for any components. Any discrepancies are to be reported to the Architect to enable instructions to be issued in advance of work being carried out.

NOTE 1
Dimensions marked * (or "Site Dimension") denote existing openings/site dimensions and are approximate and should be verified on site prior to manufacture/construction.

All dimensions are measured to face of masonry/metal or timber studwork unless noted otherwise.

Materials and Workmanship to be carried out in accordance with Building Reg's Approved Document 7.

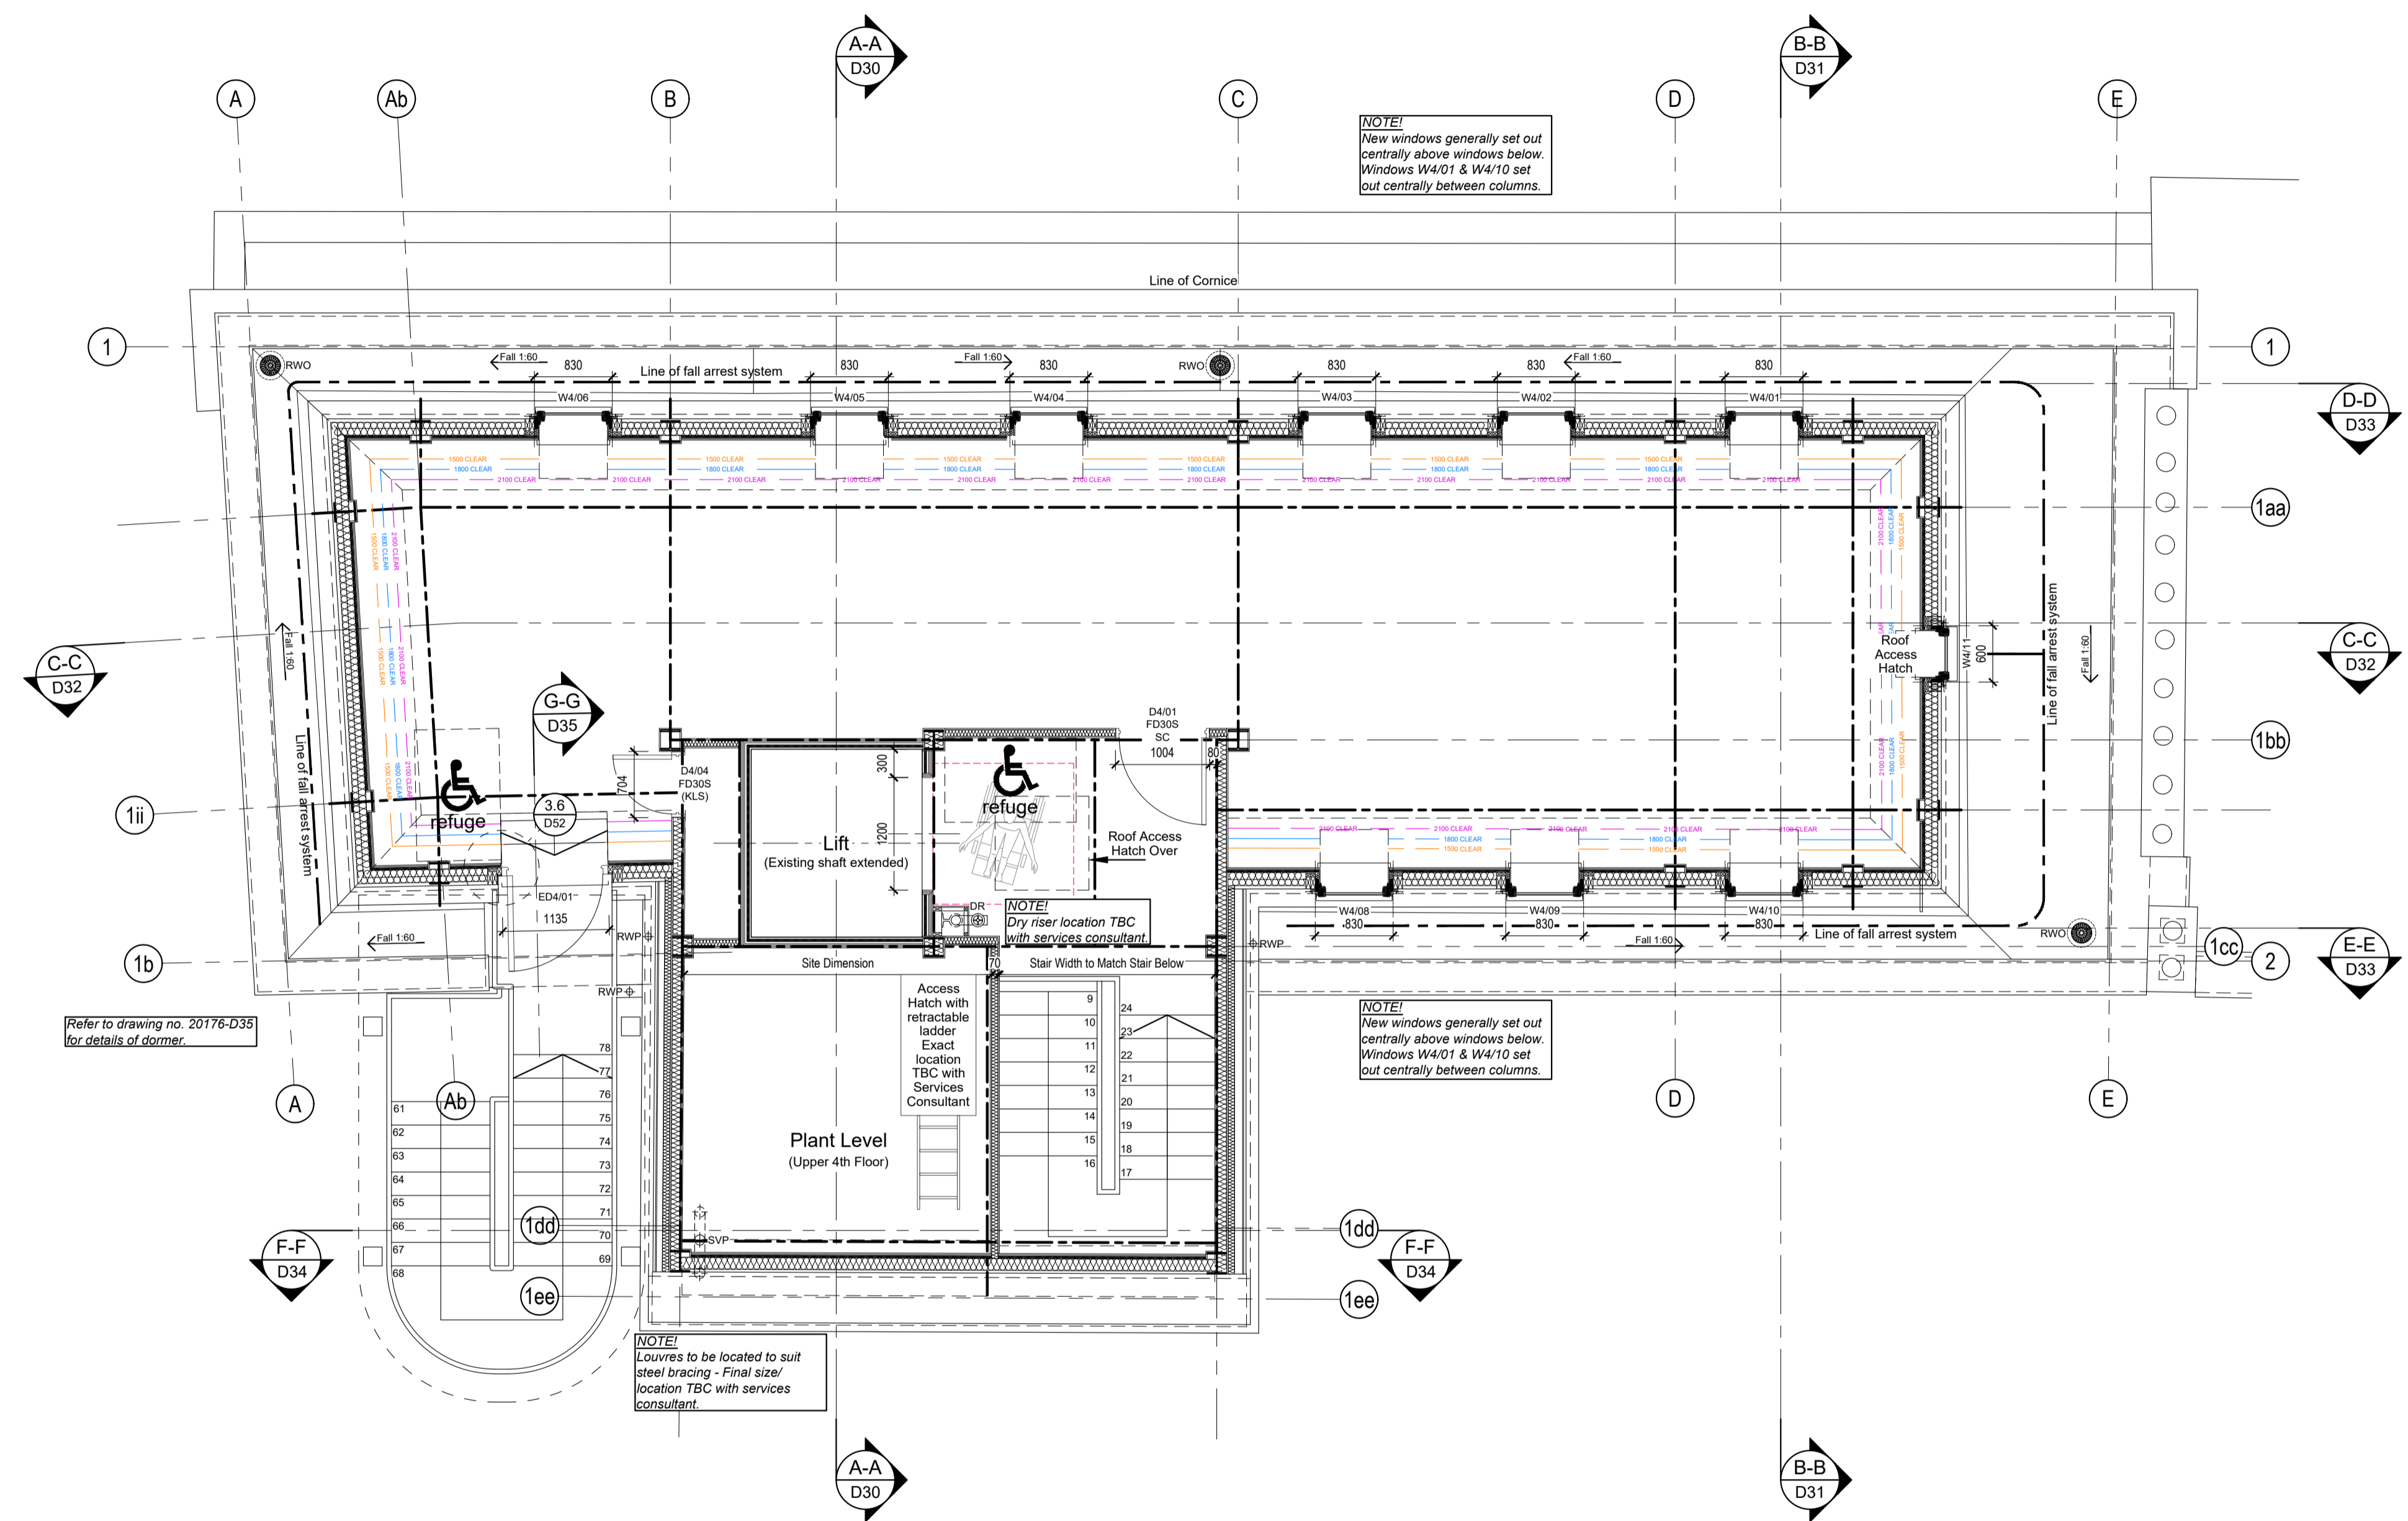

ALL CONSTRUCTION TO BE CARRIED OUT IN ACCORDANCE WITH THE LATEST VERSION OF THE BRITISH STANDARDS AND BUILDING REGULATIONS.

The contractor shall use those materials and manufacturers stated in the Architects and other consultants documentation or equivalent materials and manufacturers if approved by the specifier.

STRUCTURAL ENGINEERING DESIGN
For all structural engineering design information refer to Entuitive drawings and specification.

SERVICES DESIGN
For all M and E design information refer to KUT LLP's drawings and specification.

SURVEYED INFORMATION
These drawings are based on surveyed information provided by the client. Initial survey carried out by Survey Solutions in February 2014. Check survey carried out by 3D Services (South East) Ltd in November 2020. Where discrepancies arise, 3DS information takes priority. Existing building layouts/details may have changed since surveys were completed.

PLAN LEGEND	
D301	Internal door reference - floor/door number
W301	Window reference - floor/ window number
RWP	Rainwater downpipe
RWO	Rainwater outlet
SVP	Soil & vent pipe
SVP	Soil & vent pipe with offset from above
SS	Stub stack
AAV	SS with air admittance valve above spill level
FS	Floor socket for direct connection of WC pans
FG	Floor gully
EF	Indicative extract fan location
CFB	Cavity Fire Barrier
SH	Service hole
CP	Concrete padstone (refer to engineer's drawings)
SB	Steel beam above (refer to engineer's drawings)
TS	Timber stud partition (with sound quit where shown)
FL	Full height ceiling line
SL210	2100mm Skelling line
SL180	1800mm Skelling line
SL150	1500mm Skelling line

NOTE!
Dimensions are to face of metal/timber stud and masonry walls, excluding plasterboard & plaster

REV	DATE	REVISIONS:	BY	REV	DATE	REVISIONS:	BY	REV	DATE	REVISIONS:	BY	STATUS:
P1	14/12/20	Parapet gutter width reduced on north, south and west sides; stair flight added up to upper 4th floor (Plant Level).	GRB	P5	09/03/21	Rainwater outlet locations revised to suit new surveyed RWP locations; roof falls amended to suit; rooflights W4/01 & 10 moved to suit structural engineers design. External escape stair and end user's internal layout added.	GRB	P6	15/04/21	Lift door opening amended to suit lift manufacturer's details; beam added adjacent to roof access hatch; indicative louvre locations revised on plant level.	GRB	
P2	18/02/21	External wall (mansard roof) line moved in on north, south & west sides; amended to suit Structural Engineer's initial design; notes added.	GRB	P7	10/05/21	Lift door opening amended to suit lift manufacturer's details; beam added adjacent to roof access hatch; indicative louvre locations revised on plant level.	GRB	P8	16/06/21	Existing chimneys added on party wall to suit site surveyed information; fall arrest system extended; lift shaft construction revised; lift door opening dimensions amended to suit manufacturer's drawings; SVP omitted & dry riser relocated in lift lobby; internal layouts amended to suit end user's fit out drawings; fire doors revised to suit fire consultants drawings.	GRB	
P3	26/02/21	Roof access hatches & fall arrest system shown; wheelchair refuge note & legend added.	GRB	P9	16/11/21	Internal fit out omitted.	GRB					
P4	01/03/21	Upper roof access hatch relocated; fall arrest system extended to front gutter; plant area access stair omitted & access hatch to plant area added from toilets below.	GRB
