LOCATION:

The county town of Hertford holds a strategic south east location 10 miles due north of junction 25 of the M25. The A10 Great Cambridge Road is an historic major routeway connecting the city of London to Cambridge and beyond via Enfield, Waltham Cross, Hoddesdon, Hertford and Royston.

The adjacent town of Ware hosts GSK in a substantial internationally recognised complex.

Hertford itself has excellent road connectivity adjacent to the A10 straddling the A414 east west route providing valuable eastward connections to Harlow and westward A1M/M1 connections at Hatfield and St Albans.

The rail network is available from both Hertford East and Hertford North, the former providing a London Liverpool Street service via Tottenham Hale with its Victoria Line underground connections and the latter a London Kings Cross connection via Potters Bar.

Occupiers within close proximity include Stephen Austin Newspapers, Mercedes Benz, Fishpools, Spacelabs Healthcare, Azelis, ITS Digital, Custom Intelligent Security and Jewson.
