### Planning Permission

Planning permission was granted for a new 3 bedroom house on the farm, subject to conditions, to replace the green shed adjacent to the cottages. Permission was granted in January 2023 under application number 23/00027/PP. Further details of the planning consent can be accessed via the North Ayrshire Council Planning Portal: <https://www.eplanning.north-ayrshire.gov.uk/OnlinePlanning/search.do?action=simple>

The proposed house will replace an agricultural building and so complete a linear pattern of houses which all face the public road. Although within the curtilage of the farm steading, the house will have sufficient space around it and be separated from the other existing buildings by the access driveway while at the same time being close enough and following the linear development pattern to form a cohesive addition to the existing row of houses. The architectural style of the house will be a traditional one and a half storey building with wall-head dormers, entirely consistent with the predominant rural Arran vernacular style and with the older existing houses in the immediate vicinity.

The new house is to include three bedrooms, one with en-suite facilities, a family bathroom, a separate living room, a large dining kitchen, a utility room and a downstairs cloakroom. For further details please contact the Selling Agents.

### Outbuildings

There are a range of traditional and modern farm buildings and sheds. Further details are available from the selling agents.

The land is in very good condition, well drained and provides good quality grazing, historically used for sheep and cattle. The land is predominantly Class 4.1 for agriculture and class F4 for forestry according to the James Hutton Institute. Each field is accessed from internal tracks which appear to be in good condition and allow easy access from the public road. The farm lies between 40m and 60m above sea level and is gently undulating south-westerly towards the coast. Water appears to be supplied through field troughs. The land is designated LFA. The vendor may consider a variation of the proposed boundaries to suit a purchaser.
