

# WORTING — HOUSE —

MEETING & TRAINING FACILITIES

## WELCOME TO WORTHING HOUSE

Set in stunning parkland near Basingstoke, Hampshire, yet with easy access by road and rail, Worthing House is an exceptional place to do business. For many years we have been providing unique and flexible serviced office solutions for a range of clients, from sole traders through to multi-nationals.

Now, following extensive refurbishment we are delighted to unveil an impressive range of meeting and training facilities, which are available to both existing clients and non-residents.

Fully supported by a team of friendly professional staff, our meeting and training rooms provide exceptional value for money.

All situated in the main house, our rooms have capacity from four to thirty-two people depending on the format used.

You can choose from:

**The Boardroom:** an impressive venue for important meetings for up to ten people.

**The Conference Room:** a contemporary alternative for meetings of up to six people.

**Training Rooms:** we have two rooms available which can be booked individually or together to provide breakout and refreshment space.

We offer flexible room configurations so that you can tailor the space to suit your needs: choose from theatre style, boardroom, classroom or u-shaped layouts. The large training room is equipped with a state-of-the-art interactive training screen. All rooms have wireless internet access and the full range of audio visual equipment you would expect as well as flip charts and stationery.

Refreshments are included in our room price but we also offer a full catering service on request. In addition, our staff will meet and greet your guests and provide full secretarial support on request during your visit.

Only by visiting Worthing House will you see for yourself why our clients consider us an indispensable support for their business. Our full-time on-site Manager will be happy to discuss your requirements and show you our facilities at any time.
